INSTRUCTIONS TO PURCHASERS

WE are prepared to execute orders immediately after this Catalogue is issued, and it will be to the advantage of purchasers as well as to us, if they send in their orders at as early a date as possible. Do not delay ordering until such time as you wish to use the seeds.

PACKING. No charge for boxes, bags or barrels on vegetable seeds, bulbs or potatoes.

All Seed, both Vegetable and Flower, before we send them out, are tested as to vitality and to as great an extent as possible as to genuineness.

NON-WARRANTY.—We wish it to be distinctly understood that although we continue to take all possible pains to supply only New, Genuine and Unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

Florists' Flower Seeds.

We devote equally as much care and attention to the department of florists' seeds as to vegetable seeds for market gardeners. Our stocks are grown for us by the best growers and specialists, both at home and abroad, and entire confidence can be placed in our strains herewith offered, as it has always been our policy to secure the very best obtainable, cost being a secondary consideration. We would specially recommend our strains of Aster, Calceolaria, Cineraria, Pansy, Petunia, Primula, Stocks, Verbena, Cyclamen, Cosmos, Mignonette and all such other seeds as are much in demand by florists.

All Flower Seeds are Tested for Vitality Before Being Sent Out.

NEW HARDY ANNUAL.

NICOTIANA SANDERAE.

WITH

LARGE, BRIGHT CARMINE FLOWERS.

This hardy plant, with its rosy-carmine flowers, produces a startlingly beautiful effect in the garden. Such an intensely glowing rosy-carmine color is unknown in any plant of similar character; and either in flower beds, shrubby borders, or in the wild garden—in fact, in any position among annuals of any color or kind of foliage, whether in the background or in the open, this incomparably beautiful plant is charming. Seed sown in January, pricked out in the ordinary way that hardy annuals are treated, transplanted in May in the position where it is intended to flower, is all that is necessary. There is no plant that is easier to grow. The care given to the most ordinary annual will suit this new *Nicotiana* admirably, and for a minimum of care a maximum wealth of its *Calanthe*-like blossoms can be had in the garden all the summer and autumn.
